

Free Seminar and Demonstration

Invitation to a FREE three-hour exclusive seminar and workshop in a brief insight into the wonderful world of QINOperactic Medicine.

Here you will learn about our unique combination of knowledge, wisdom, and philosophy from Eastern Medicines and Chiropractic melded together with modified techniques from Kinesiology, Osteopathy, and different European Soft Tissue and Massage Therapies into a holistic, 'whole-body' treatment protocol - QINOperactic Medicine.

We will do our best to explain various chains of movement throughout the body.

Similar to a chain, or dominoes falling, it's always the weak link in the body which is the first to give.

For example, muscular imbalance can lead to fatigue and pain throughout the entire system.

But, as can Chemical imbalances, negative thoughts, stress, and preprogrammed "truths"/beliefs.

We will not only tell you about these chains and their complication but if you want to you can come and lay on the table and feel for yourself.

We will talk about energy, actually, we will talk a lot about energy and how to synchronize this in our body.

One topic that always is very popular is when we demonstrate how the left and right brain hemispheres react during stress, mind-blowing.

We will talk and show you how important negative thoughts are and how they affect your body and health.

This is one day you do not want to miss. All your friends will talk about this for a long time and you don't want to be left on the curb wondering what they are all so revved up about.

We will mix lecture with demonstration and explanation, depending on how many we are, we might not be able to have you all test our techniques.

During this mind-blowing one day intro to QINOperactic Medicine and it's wonderful world, we will openly share our 40-year experience with how we view healing and how the body actually works.

Some of you may be even shocked how wonderful the body is, and then some of you might flip out.

It is nothing you have ever expected and believed, but here it is. Put your tray-table, pull your blinds up, buckle your belt, and let's go - Guaranteed one day you will never forget.

We will also present our custom-made course for you. A course that has never been presented before because it's special-made for you.

Welcome to the future.
