

Tuesday courses

Hi and thank you for taking the time to read a brief presentation about our new Tuesday courses and seminars.

From March 2 and five Tuesdays we will offer specially designed courses and seminars in wonderful Cabopino (between Marbella and Fuengirola).

These courses and seminars are independent of each other, you can take one, two, or all five and since they are not dependent on one another, you can take for example courses 2,3 and 5, depending on what suits You.

There is no prerequisite for these courses, anybody can participate.

All courses start at 9,00 with breakfast and intro to the course and who you are and they all end at 13,00
The cost is €100 per course.

All our courses are unique and a combination of eastern and western philosophies and medicine.
We do not offer any mainstream courses but rather custom-made ones depending on our students and now we have put these ones together.

Preliminary Program:

March 9 - Basic Energy Synchronization.

The intention behind this course is to offer a unique course where we will teach you how to synchronize energy in the body and for you to get an even bigger understanding of how amazing the body is.

Everybody that wants to learn how to synchronize energy in the body is welcome.

This course is a great introduction to the strange concept of Energy and we will teach you one way of synchronizing this and the Chinese Meridian Massage

March 16 - Neurological Calibration

Here we will talk about the healing of the body and how important good brain hemisphere integration is. You also learn how to synchronize the two hemispheres and why stress shuts us off, and of course how you can help your family and friends. A little more in-depth than the basic course and this course will forever change the way you think about the healing of the body.

March 23 - Stress and Goal setting

During today we will talk a lot about stress, how it affects us, and one fast but very effective way to de-stress yourself. The second part is about goal setting and why this is so important.
This day will give you an even more in-depth understanding of the first two courses but again, it's completely independent of these two.

March 30 - Psychological Kinesiology

This day we will teach you the technique that Dr Bruce Lipton recommends to re-write faulty patterns on your subconscious mind. We find a way in to your brain, unlock the closed doors and then healing takes place. Amazing stuff.

Tuesday courses

April 6 - Energetic Synchronization

In the first course, we had some basic energy synchronization, and on this day we will add two more techniques to synchronize energy in our bodies.

The techniques are non-forceful energy balancing techniques and used to help re-establish the full healing potential of the body. Healing comes from within and here we will teach you how to tap into this source.

Registration: To register you simply send a mail to info@sweqino.com
